

# GreenEnterprise

## Environmental Innovation Funding Opportunities for Businesses and Organisations

**GreenEnterprise** is run by the Environmental Protection Agency to provide grant aid for businesses and other organisations to become cleaner and greener. If your organisation wants to improve its environmental performance, profits, efficiency and public image, then **GreenEnterprise** is for you.

The aim of **GreenEnterprise** is to encourage better business practices, helping to reduce the consumption of resources and minimise environmental burden through process and product innovation. This provides a win-win solution as organisations become more economically and environmentally sustainable.

In keeping with ongoing support of Food Harvest 2020, applications are particularly encouraged from the food/drink production and processing sectors. In addition, applications aimed at developing behavioral change and suitable metrics are a key target area for this call.

Available grant-aid will range from €5,000 to €60,000 depending on project scope.

### Application Process & Further Information

Further information on GreenEnterprise and the application process is available from the EPA website: [www.epa.ie/researchandeducation/research/fundingopportunities/](http://www.epa.ie/researchandeducation/research/fundingopportunities/)

Contact [research@epa.ie](mailto:research@epa.ie) with inquiries about this funding programme.

Online application for the above calls should be carried out in a two-step process:

- Submission of applications by 5pm, 9th July 2013;
- Authorisation of applications by 5pm, 16th July 2013.

**GreenEnterprise** replaces the Cleaner Greener Production Programme.
